

LOGIC INTELLIGENCE TECHNOLOGIES

# BUILDING THE LEADERSHIP CORE

Coimbatore 2026 startup. Employment offers and letters of intent. Not a partnership program. Not a raise.

JOBS, NOT CHEQUES

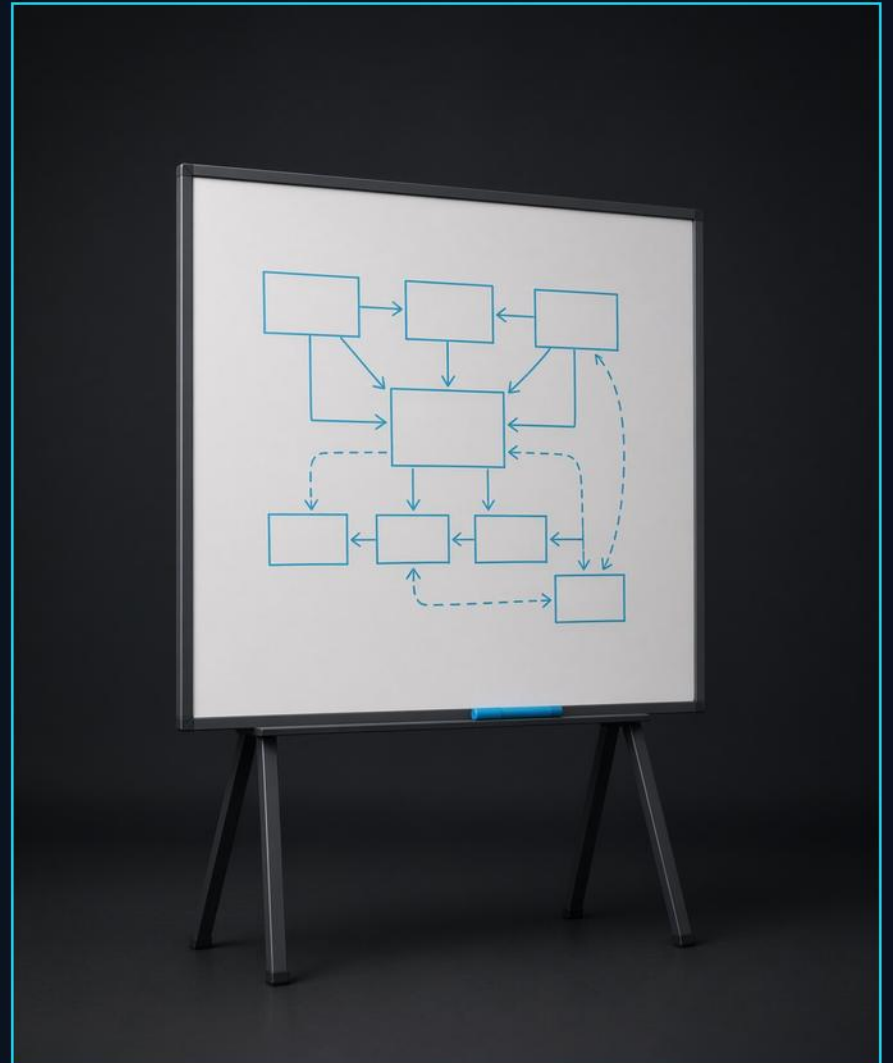

## PHILOSOPHY

# OWN AN OUTCOME. OR DO NOT TAKE THE SEAT.

Grow first, then we grow together. A title without an SLA is a passenger.

- Ship this quarter. Pace is in the job description.
- 0 in the letter until GST entity + first invoice, if that is the truth.
- Equity vests 4 years / 1-year cliff after the entity exists.

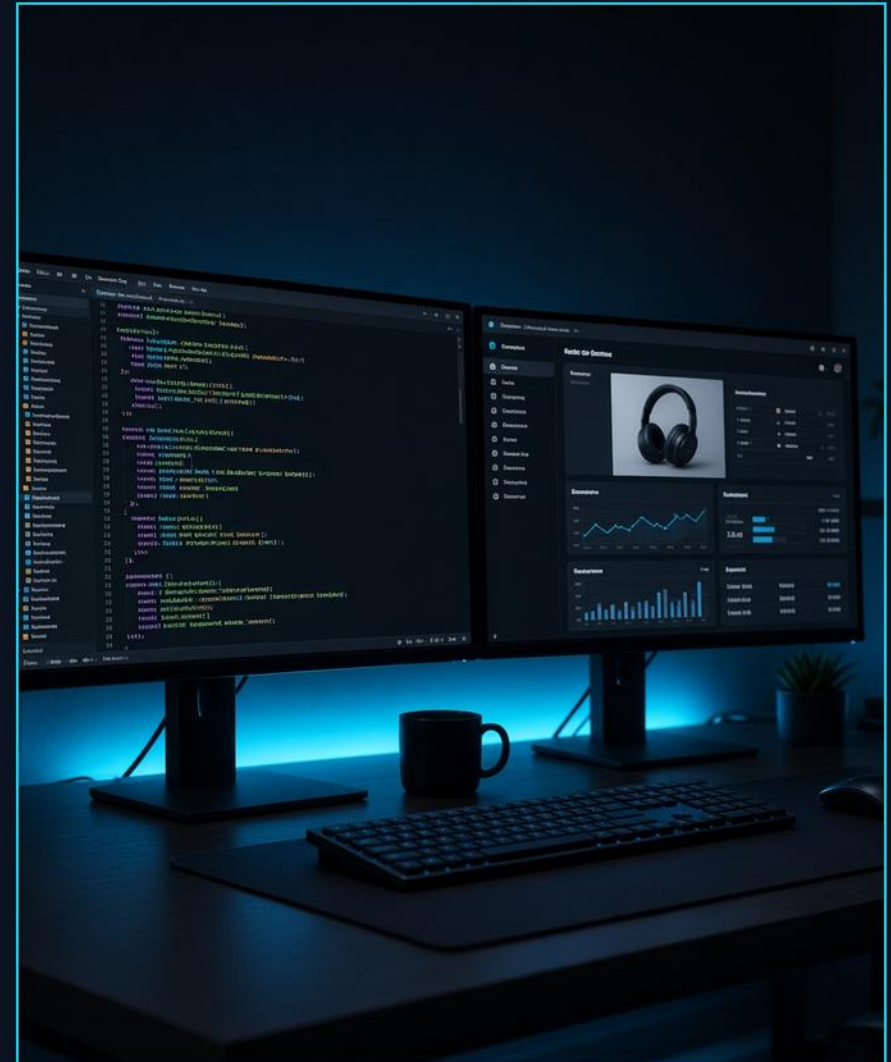

FOUNDER / CEO

# THE FOUNDER KEEPS PRODUCT.

Vikash Saravanan: vision, capital, final scoping, AI. CEO is an open job — operations, not a bought title.

- Founder: B.Tech AI & DS, Rathinam; Microsoft Student Campus Ambassador.
- OPEN CEO: ops, sales, legal, hiring. Salary after first revenue. Six-month trial.
- Wrong room if you want CEO in exchange for a cheque.

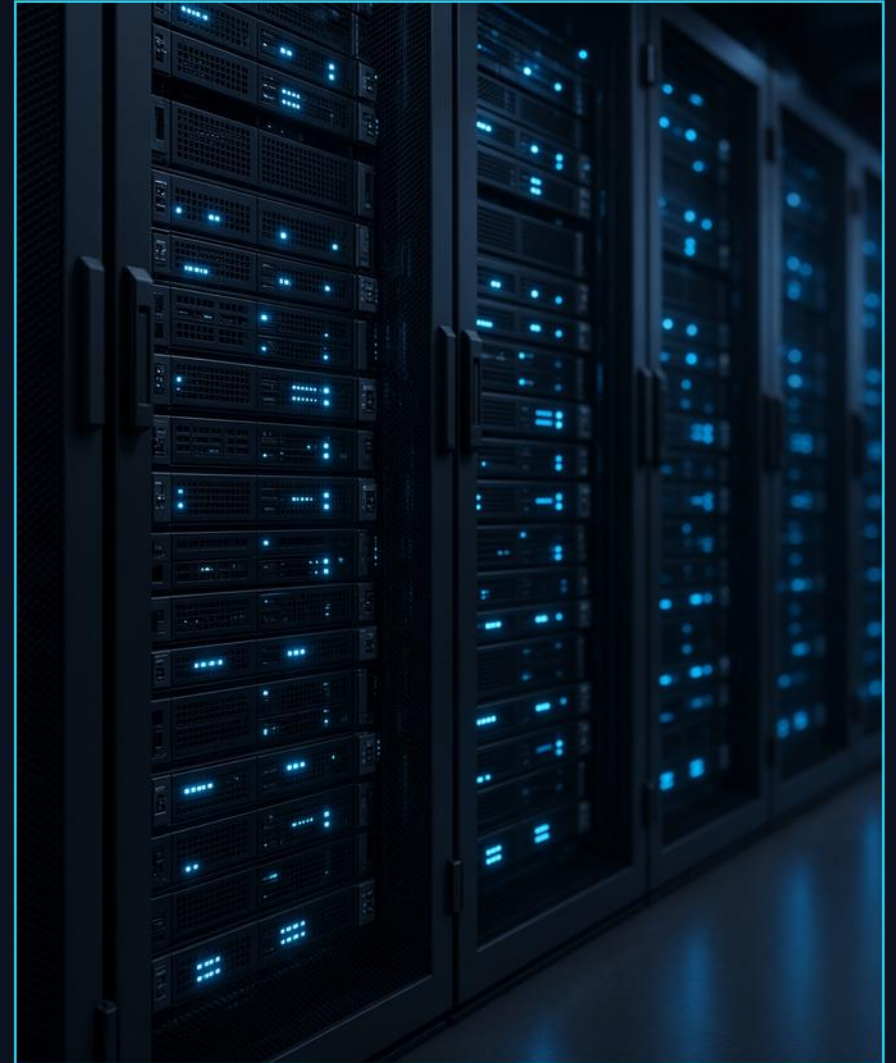

## SEATS

# ENGINEERING. SALES. AI.

Each director has a P&L or an SLA. Independent Director is board-only.

- Dir. Engineering — delivery, Git, uptime. Salary + 0.5–2% after entity.
- Dir. Sales — pipeline and close. Commission + small option.
- Dir. AI / Product — RAG quality and SOWs. Equity-heavier than cash.

## THE LETTER

# WE WILL PUT THIS IN WRITING.

If you need a vanity title without these lines, we will not hire you.

- Title, start, reports to Founder, IP, probation, 12-month non-solicit.
- We will not offer: unpaid CEO, unvested co-founder, director-for-cheque.
- LOGIC INTELLIGENCE TECHNOLOGIES is a startup — not Pvt. Ltd. on this letterhead today.

APPLY

# NAME THE SEAT. TEN LINES.

Role in the subject. What you shipped. When you start. What you own in 90 days.
