SECTION 01

What We Are

NOT RAISING

No priced equity round is open. Jobs are offer letters. Investors get equity only after paying seats and real revenue — not a CEO title for a cheque.

Logic Intelligence Technologies is a production software studio for Indian SMBs. Written scope, timelines, and live systems — not slogans. Every engagement starts with a 31-point kickoff and a live staging URL before production code begins.

LIVE TODAY

- ◆ Company site: logicintelligencetechnologies.in
- ◆ AI demo page: [/ai](#) · Client portal: [/free-demo](#)
- ◆ 31-point written scope before any code starts
- ◆ Floors: ₹18,999 · ₹1,18,999 · custom ₹1,50,000+

WHAT EQUITY IS — AND IS NOT

- ◆ Jobs are employment offers and letters of intent
- ◆ Equity vests 4 years / 1-year cliff after the entity exists
- ◆ Investors get equity only after paying seats and real revenue
- ◆ CEO is an open operations role — not a bought title

SECTION 02

Problem & Solution

THE PROBLEM

Hotels, travel desks, and retailers buy a number — not a specification. Opaque quotes with no pages and no tests lead to change-requests and refunds. Brochure AI chatbots invent tariffs and GST figures — every wrong answer is a refund or a lost 11pm lead.

THE SOLUTION

Scoping is the product. A 31-point kickoff document, timeline, live staging URL, and acceptance tests before any invoice. Stack: Next.js · FastAPI · Grok (xAI) · Groq · pgvector. If the corpus lacks a tariff, the bot must say so — not invent one.
