

Engineering Services Brochure

Comprehensive Services Catalog & Engagement Models

Logic Intelligence Technologies â Official Corporate Publication

1. Custom Software Engineering

End-to-end bespoke software systems built for resilience, horizontal scalability, and maintainability. Full-stack TypeScript, React, Next.js, Node.js, and cloud native infrastructure.

2. Intelligent Process & Workflow Automation

High-throughput robotic process automation and autonomous worker pipelines that eliminate repetitive operational overhead and human error.

3. Artificial Intelligence & Applied Machine Learning

Bespoke AI solutions grounded in private organizational knowledge, structured output schemas, and low-latency inference pipelines.

4. Cloud Infrastructure & Security Auditing

Database hardening, Row Level Security auditing, CI/CD pipeline automation, and multi-tenant cloud isolation.
