

Enterprise Statement of Work (SOW) Standard

Operational Specifications, Acceptance Criteria & SLA Commitments

Logic Intelligence Technologies â Official Corporate Publication

1. Scope of Engagement

Explicit enumeration of services, architectural components, third-party integrations, and boundary exclusions.

2. Acceptance Testing Protocol

Formal acceptance testing procedure, defect classification tiers, remediation timeframes, and sign-off requirements.

3. Operational SLA & Escalation Paths

Defined uptime commitments, security incident response thresholds, and dedicated engineering escalation contacts.
